

*“Every night I go home feeling like I’ve done something special for another woman.”*

WHB's Three Generations – Vicki Dortch Jones, daughter Crystal Jones Tipton, and granddaughter Hattie Leigh Tipton

These words capture the spirit of Women’s Health Boutique.

Throughout every stage of life, women are faced with health-related challenges and opportunities. Our mission is “to meet women’s special healthcare needs and make a positive difference in the way women look and feel about themselves”.

Women’s Health Boutique began in Longview over 20 years ago as a legacy to Billie Dortch, Vicki’s mother and Crystal’s grandmother.

You’ll want to read this tender and inspiring story on our website and in our book, “I Feel Like Me Again”. You will be equally inspired as you read the story of Tracy Gomez, of our Plano boutique.

We invite you to discover Women’s Health Boutique – a place where you can find what you need in one beautiful, special place to shop. So you can say “I feel like me again”.
