Improve Patient Outcomes
Comfort + Convenience = Compliance
ADVANCED TECHNOLOGY THAT’S EASY TO USE.

The Flexitouch® Plus is the only pneumatic compression device that has been clinically proven to stimulate the lymphatic system.¹ With our third-generation garments and controller, the Flexitouch Plus makes it even easier for patients to benefit from this advanced at-home therapy.

GARMENT FEATURES

SIMULTANEOUS BILATERAL THERAPY
saves patients treatment time

INTUITIVE DESIGN
allows lower extremity garments to slide on like boots; trunk garments slide on like shorts

ENHANCED CLOSURES
make garments easier to put on and take off, while maintaining the ability to fit each patient’s individual body shape

UNIQUE CHAMBER DESIGN
supports gentle and dynamic mechanism of action

REMOVABLE HOOK AND LOOP PADS
increase garment lifespan

ONE-HAND HOSE ATTACHMENT
connects with push-and-click motion
CONTROLLER FEATURES

LARGE 7” COLOR DISPLAY
with easy-to-read instructions

LARGE BUTTONS
for easy operation

COUNTDOWN TIMER
shows time remaining

STORES UP TO THREE PRESET PROGRAMS
for added convenience

COMPACT FOOTPRINT
for easy storage

PORTABLE DEVICE WITH INTEGRATED HANDLE DESIGN
for travel-ready, compact portability

“‘I LOVE THIS MACHINE. I AM ABLE TO WEAR BOOTS AND AN ANKLE BRACELET. LITTLE ACCOMPLISHMENTS TO SOME, BUT EXTREMELY EXCITING TO ME!’”
—BELINDA, FLEXITOUCH PLUS USER

96% Patient Satisfaction²
The Flexitouch Plus system uses a unique mechanism of action that has been clinically proven to improve outcomes, reduce costs and improve the quality of life for patients.\(^2\,^4\)

**THE CLINICALLY PROVEN RESULTS YOU HAVE COME TO EXPECT FROM THE FLEXITOUCH SYSTEM**

The Flexitouch Plus system uses a unique mechanism of action that has been clinically proven to improve outcomes, reduce costs and improve the quality of life for patients.\(^2\,^4\)

**FLEXITOUCH SYSTEM CLINICAL EVIDENCE**
*Journal of the American Medical Association (JAMA) Dermatology — Study Highlights*

A study of 718 lymphedema patients evaluating patient health outcomes and healthcare costs in cancer and non-cancer cohorts.\(^4\)

- **79% Reduction in Rate of Cellulitis Episodes**
  - 75% Reduction Among Non-Cancer Patients

- **54% Reduction in Rate of Inpatient Hospitalizations**
  - 22% Reduction Among Non-Cancer Patients

- **40% Reduction in Rate of Outpatient Hospital Visits**
  - 29% Reduction Among Cancer Patients

- **34% Reduction in Rate of Physical Therapy Visits**
  - 30% Reduction Among Cancer Patients

- **37% Reduction in Total Lymphedema-Related Costs**
  - 36% Reduction Among Non-Cancer Patients

\(\*$ For Cancer-Related Patients \**For Non-Cancer-Related Patients \^ Excluding Medical Equipment

**COSTS OF HOSPITALIZATION FROM CELLULITIS MAY EXCEED $16,000 PER YEAR.**\(^5\)

AVOIDING A SINGLE HOSPITALIZATION DUE TO CELLULITIS COULD SAVE PATIENTS MORE THAN 4 DAYS IN THE HOSPITAL.\(^6\)
IMPROVED OUTCOMES. HIGH SATISFACTION. INCREASED COMPLIANCE.

In a clinical study following 155 lymphedema patients, Flexitouch use resulted in improved outcomes, high satisfaction and high compliance:

95% Maintained or Reduced Limb Volume
90% Reported Satisfaction with Flexitouch At-Home Treatment
96% Were Compliant with the Prescribed Therapy

93% Among Non-Cancer-Related Lymphedema Patients

“THE FIRST TIME I USED THE FLEXITOUCH AT HOME I CRIED BECAUSE IT BROUGHT MY ARM SUCH COMFORT. NOTHING I TRIED BEFORE EVER GAVE ME SUCH RELIEF.”

—JUDITH, FLEXITOUCH USER
Near infrared imaging demonstrates lymph movement toward axillary nodes following Flexitouch therapy\(^1\) in a breast cancer-related lymphedema patient:

**THE ONLY PNEUMATIC COMPRESSION DEVICE PROVEN TO STIMULATE THE LYMPHATIC SYSTEM**

Evidence of increased lymphatic activity and movement toward axilla

Clinical evidence shows the Flexitouch system significantly improves clinical outcomes:\(^3\)

- **88%** Experienced Limb Volume Reduction (35% Experienced Reduction of >10%)
- **86%** Experienced a Reduction in Fibrosis
- **85%** Demonstrated Increased Ability to Perform Activities of Daily Living

“I DID NOT THINK ANY KIND OF THERAPY WOULD WORK, BUT NOW I CAN SLEEP ON MY BACK. I CAN MOVE AROUND MORE EASILY, AND I FEEL BETTER.”

—FAYE, FLEXITOUCH USER
HOW IT WORKS

Our unique garment chambers stimulate the lymphatic system to remove excess fluid and reduce edema. The pneumatic chambers sequentially inflate and deflate for just a few seconds each, creating a gentle wave-like application of pressure to stimulate the movement of lymphatic fluid and direct it toward properly functioning areas of the body.

“I LOVE MY FLEXITOUCH.
IT IS VERY EASY TO USE AND IT IS LIKE A MASSAGE.”
—MARY S., FLEXITOUCH USER

THE FIRST AND ONLY PNEUMATIC COMPRESSION THERAPY SPECIFICALLY DESIGNED TO TREAT HEAD AND NECK LYMPHEDEMA

The head and neck garment set is easy to use and features the clinically proven Flexitouch technology that tens of thousands of lymphedema patients currently rely on every day to effectively treat their extremities.

“It WORKS GREAT!
MY NECK LOOKS NORMAL.”
—DON, FLEXITOUCH USER
**Indications/contraindications:** Indications, contraindications, warnings and instructions for use can be found in the product labeling supplied with each device.

**Caution:** Federal (USA) law restricts these devices to sale by or on the order of a licensed healthcare practitioner.

4. Karaca-Mandic P, Hirsch AT, Rockson SG, Ridner SH. The cutaneous, net clinical, and health economic benefits of advanced pneumatic compression devices in patients with lymphedema. *JAMA Dermatol*. 2015; 151(11): 1187–1193. The study analyzed upper and lower extremity lymphedema patients with cancer related (4a) and non-cancer related lymphedema (4b) treated with the Flexitouch System. The reduction rate of inpatient hospitalization was not statistically significant (4c). Total costs excluded medical equipment (4d). The study evaluated use of the Flexitouch System as a tool for the treatment of lymphedema. The study documented a reduction in the rate of cellulitis episodes following use of the Flexitouch System for the treatment of lymphedema. The Flexitouch System is not used for nor intended for use to treat cellulitis.

Tactile Medical is a leader in developing and marketing at-home therapy devices that treat lymphedema and chronic venous insufficiency. Our mission is to help people suffering from chronic diseases live better and care for themselves at home. Our unique offering includes advanced, clinically proven pneumatic compression devices, as well as continuity of care services provided by a national network of product specialists and trainers, reimbursement experts, patient advocates and clinicians. This combination of products and services ensures that tens of thousands of patients annually receive the at-home treatment necessary to better manage their chronic conditions. Tactile Medical takes pride in the fact that our solutions help increase clinical efficacy, reduce overall healthcare costs and improve the quality of life for patients with chronic conditions.
