Host Institution: University of Calgary

Organizers: Pierre-Yves von der Weid and Shan Liao, *University of Calgary*;
Stanley Rockson, *Stanford University*; Jan Kitajewski, *University of Illinois at Chicago*;
Carrie Shawber, *Columbia University*; Miikka Vikkula, *de Duve Institute, Brussels*;
Brandon Dixon, *Georgia Tech*; Spencer Gibson, *University of Alberta*

Co-Organizer: William Repicci, *Lymphatic Education & Research Network*

Date & Location: June 13–17, 2023 at The Banff Centre, Banff, Alberta, Canada

The **Lymphatic Education and Research Network (LE&RN)** and the **North American Vascular Biology Organization (NAVBO)** are pleased to sponsor the upcoming **Lymphatic Forum 2023, Exploring the Lymphatic Continuum**, June 13–17, 2023 at The Banff Centre, Alberta, Canada, and hosted by the University of Calgary.

Topics to include:

- Lymphatic Development
- Lymphatic Function and Transport (Sponsored by The Microcirculatory Society, Inc.)
- Airway & Lung Lymphatics
- Skin Lymphatics
- Vascular and Heart Lymphatics
- Liver and Kidney Lymphatics
- Lymphatics, Cancer, and Metastasis
- Gastrointestinal Lymphatics
- Lymphatics in the Brain
- Immunity and Infection

The Forum will also include **Poster Sessions** and a **Young Investigator Session** with other great opportunities for the involvement of young investigators.

Highlights

- Presentations by over 25 internationally renowned scientists working in basic and disease-oriented areas of lymphatic and vascular biology
- Short talks from selected abstracts
- Patient-oriented session
- Poster sessions
- Young Investigator session
- Clinical presentations
- Travel and poster awards for trainees
- Art Exhibit dedicated to lymphatics
