

AGENDA (Pacific Time)

Friday, September 30, 2022

8:00 Welcome and Introductions: Stanley G. Rockson, MD, *Stanford University and LE&RN, Stanford, CA;* and William Repicci, *President and CEO, LE&RN, New York, NY*

LYMPHEDEMA: DIAGNOSIS AND CLINICAL MANAGEMENT

Session Chair: Margaret Campbell Sneddon, MSc Medical Science (RES); *University of Glasgow, College of Medical, Veterinary and Life Sciences*

8:15 Lymphedema Diagnosis and Management: What the Clinician Must Know; Stanley G. Rockson, MD, *Stanford University and LE&RN, Stanford, CA*

8:45 Lymphedema Diagnosis and Management: The Patient Experience; Brett Carroll, MD, *Beth Israel New England Deaconess Medical Center, Boston, MA*

LYMPHEDEMA: SURGICAL MANAGEMENT

Session Chair: Ketan M. Patel, MD, Assoc. Professor, Regional Director, Plastic & Reconstructive Surgery, *Cedars-Sinai Health Systems and Affiliated Hospitals, CA*

9:00 Surgical Options in Lymphedema: What the Clinician Must Know; Dhruv Singhal, MD, *Beth Israel New England Deaconess Medical Center, Boston, MA*

9:30 Surgery for Lymphedema: The Patient Experience; Håkan Brorson, MD, PhD, *Lund University Malmö, Sweden*

CELLULITIS AND LYMPHEDEMA

Session Chair: Vaughan Keeley, PhD, FRCP, *University of Nottingham Medical School, UK*

9:45 Cellulitis and Lymphedema: What the Clinician Must Know; Steven M. Dean, DO, FSVM PRVI, *The Ohio State University Medical Center, Columbus, OH*

10:15 Cellulitis and Lymphedema: The Patient Experience; Christine Moffatt, CBE, FRCN, PhD, MA, RGN, DN, *Lymphoedema Framework Project, UK*

10:30 Break

PHLEBOLYMPHEDEMA

Session Chair: Neil Khilnani, MD, *New York-Presbyterian Hospital, NY*

10:45 PhlebolympheDEMA: What the Clinician Must Know; Fedor Lurie, MD, PhD, *Jobst Vascular Institute and University of Michigan, Ann Arbor, MI*

11:15 PhlebolympheDEMA: The Patient Experience; Sergio Giancesini, MD, PhD, FACS, *University of Ferrara, Italy*

LIPDEMA

Session Chair: Peter Mortimer, MD, *St. George's Hospital, London*

11:30 Lipedema: What the Clinician Must Know; Andrzej Szuba, MD, PhD, *Wroclaw Medical University, Poland*

12:00 Lipedema: The Patient Experience; Catherine Seo, PhD, *Lipedema Simplified & Lipedema Project, Boston, MA*

LYMPHATIC MALFORMATION

Session Chair: David M. Hovsepian, MD, *Stanford University School of Medicine, CA*

12:15 Lymphatic Malformations: What the Clinician Must Know About Diagnosis and Medical Management; Joyce M. C. Teng, MD, PhD, FAAD, *Stanford University School of Medicine, Palo Alto, CA*

12:30 Complex Lymphatic Malformations: What the Clinician Must Know About Interventional Approaches; Max Itkin, MD, *Hospital of the University of Pennsylvania, Philadelphia, PA*

12:45 Thoracic Duct Disorders: What the Clinician Must Know About Surgical Approaches; Stephen J. Kovach, MD, FACS, *University of Pennsylvania Health System, Philadelphia, PA*

1:00 Lymphatic Malformations: The Patient Experience; Francine Blei, MD, MBA, *NYU Grossman School of Medicine, NY*

HEAD AND NECK LYMPHEDEMA

Session Chair: Sheila H. Ridner, PhD, RN, FAAN, *Vanderbilt University*

1:15 Head and Neck Lymphedema: What the Clinician Must Know About Diagnosis and Medical Management; Barbara A. Murphy, MD, *Vanderbilt University Medical Center, Nashville, TN*

1:45 Head and Neck Lymphedema: The Patient Experience; Jie Deng, PhD, RN, OCN, FAAN, *University of Pennsylvania, Philadelphia, PA*

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Academy for Continued Healthcare Learning and LE&RN. ACHL is accredited by the ACCME to provide continuing medical education for physicians.

The Academy for Continued Healthcare Learning designates this live activity for a maximum of 5.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Guidelines require that participants in CME activities be made aware of all financial relationships that may be perceived as affecting the presentation of the faculty member. ACHL ensures that all faculty and staff involved in the planning, development, and implementation of ACHL activities disclose financial relationships and that conflicts of interest are mitigated before the CME activity occurs. Complete information will be provided to participants prior to the start of the educational activity.

2022 VIRTUAL LYMPHATIC SUMMIT

Lymphatic Disease: The Clinician/Patient Interface in State-of-the-Art Diagnosis and Management

— FRIDAY, SEPTEMBER 30 —

A forum for LE&RN's Centers of Excellence and the lymphatic disease community.

Centers of Excellence | Stanford School of Medicine

Lymphatic Disease: The Clinician/Patient Interface in State-of-the-Art Diagnosis and Management will be presented online in its entirety on Friday, September 30, 2022.

The diagnostic and therapeutic approaches to lymphatic diseases are rapidly evolving and becoming increasingly sophisticated. This long-awaited evolution has created an imperative for health care professionals to embrace these skills and the research support for their appropriate utilization. In parallel, it is imperative that health care professionals comprehend the profound impact of lymphatic disease and its treatment upon both function and quality-of-life. To this end, this year's state-of-the-art lymphatic medicine summit conference will both highlight state-of-the-art clinical management techniques and the patient user interface with both disease and its management. Evolving concepts and unanswered questions will be emphasized.

The *Centers of Excellence Summit* is hosted by **Stanford University School of Medicine** and **LE&RN**. It was organized and will be chaired by **Stanley G. Rockson, M.D.**, the Allan and Tina Neill Professor of Lymphatic Research and Medicine at Stanford University. The conference is considered appropriate for both health care professionals and patients and their families. Replays will be available after the conference until 11/01/22.

Upon completion of this activity, participants will be able to:

- Utilize the emerging diagnostic and therapeutic tools for the broad spectrum of lymphatic disease
- Appropriately address surgical and pharmacological decisions for lymphatic patients
- Utilize state-of-the-art diagnostic imaging to refine diagnostic evaluation
- Recommend state-of-the-art treatment options and interventions for patients with lymphatic disease, including those with lymphedema, lymphedema-related cellulitis, phlebolympheDEMA, lipedema, and lymphatic and complex vascular malformations
- Recognize and address the patient experience within these disease states and comprehend the patient experience during diagnosis and treatment

Up to 10 million Americans are estimated to be living with lymphedema (LE) and there are an additional 17 million women in America estimated to have lipedema (LI). The World Health Organization projects up to 250 million people with LE worldwide. Nevertheless, lymphatic patients still struggle to find physicians who are prepared to undertake their necessary medical care. Upon completion of this summit, participants will be better equipped to provide state-of-the-art lymphatic care.

CME REGISTRATION: \$99 • GENERAL REGISTRATION: \$35*
