# JOIN THE **LE&RN** KENYA CHAPTER!

The World Health Organization estimates that over 250 million people worldwide have lymphedema (LE).

The **Lymphatic Education & Research Network's** Kenya Chapter connects people affected by lymphedema and lymphatic diseases (LD) across the country.

The chapter's goals are to build a community, increase awareness, educate others, and fight for a cure.

Please visit the LE&RN Kenya Chapter website at  
<https://lymphaticnetwork.org/international-chapters/kenya>

And follow the Kenya Chapter on 

To become involved, contact **Dr. Abigail Leslie** at

Lymphatic Education  
& Research Network

The **Lymphatic Education & Research Network** has been fighting lymphedema (LE) and lymphatic diseases (LD) since 1998. Whereas millions suffer from these diseases, they are routinely undiagnosed or mistreated.

**LE&RN** is dedicated to fighting lymphatic diseases through education, research, and advocacy. We seek to accelerate the prevention, treatments, and cures for lymphedema, lipedema, lymphatic anomalies, and the continuum of lymphatic diseases.
