

World  
Lymphedema  
Day®  
March 6

# JOIN THE **LE&RN** GREECE CHAPTER!

The World Health Organization estimates that over 250 million people worldwide have lymphedema (LE).

The **Lymphatic Education & Research Network's** Greece Chapter connects people affected by lymphedema and lymphatic diseases (LD) across the country.

The chapter's goals are to build a community, increase awareness, educate others, and fight for a cure.

Please visit the LE&RN Greece Chapter website at <https://lymphaticnetwork.org/international-chapters/greece>

And follow the Greece Chapter on 

To become involved, contact **Evripidis, Dimitrious**, or **Erica** at [GreeceChapter@lymphaticnetwork.org](mailto:GreeceChapter@lymphaticnetwork.org)

The **Lymphatic Education & Research Network** has been fighting lymphedema (LE) and lymphatic diseases (LD) since 1998. Whereas millions suffer from these diseases, they are routinely undiagnosed or mistreated.

**LE&RN** is dedicated to fighting lymphatic diseases through education, research, and advocacy. We seek to accelerate the prevention, treatments, and cures for lymphedema, lipedema, lymphatic anomalies, and the continuum of lymphatic diseases.
