

The Power of One Fellowship

Recruiting an outstanding MD-PhD or PhD student to study lymphatic disease

Le Cras Research Lab

Contact Tim Le Cras, PhD at tim.lecras@cchmc.org

513-317-6352

The Power of One Fellow will:

- Pursue PhD research focused on pathogenesis and treatment of vascular anomalies, such as kaposiform lymphangiomatosis (KLA) & other rare lymphatic diseases
- Shadow specialty physician-scientists in the vascular malformation centers at Cincinnati Children's and Children's Hospital Of Philadelphia to learn about clinical care of these patients
- Meet on a regular basis via zoom with patients and families with vascular anomalies to learn about their diseases and develop hypotheses to pursue new therapies
- Train in a multidisciplinary environment and integrate information from patients into new research
