JOIN THE **LE&RN** NIGERIA CHAPTER!

The World Health Organization estimates that over 250 million people worldwide have lymphedema (LE).

The Lymphatic Education & Research Network's Nigeria Chapter connects people affected by lymphedema and lymphatic diseases (LD) across the country. The chapter's goals are to build a community, increase awareness, educate others, and fight for a cure.

Please visit the LE&RN Nigeria Chapter website at
<https://lymphaticnetwork.org/chapters/nigeria>

And follow the Nigeria Chapter on 

To become involved, contact Ridwan Abdulfattah at
NigeriaChapter@lymphaticnetwork.org

The **Lymphatic Education & Research Network** has been fighting lymphedema (LE) and lymphatic diseases (LD) since 1998. Whereas millions suffer from these diseases, they are routinely undiagnosed or mistreated.

LE&RN is dedicated to fighting lymphatic diseases through education, research, and advocacy. We seek to accelerate the prevention, treatments, and cures for lymphedema, lipedema, lymphatic anomalies, and the continuum of lymphatic diseases.
